EDUCATION

Northwestern University

B.A. in Economics, Cognitive Science and Political Science

Evanston, IL

Expected Jun 2027

- GPA: 3.98/4.0, Dean's List (All Quarters); SAT: 1550 (Reading 760, Math 790)
- Courses: Causal Inference, Statistical Research Methods, Applied Econometrics, Microeconomics, Behavioral Economics, Data Visualization, Data Science for Social Science, Independent Study, Field Studies of Law

Zhejiang University

B.A. in Spanish and Legal Studies

Hangzhou, China

Aug 2023 – Jun 2025

- GPA: 3.90/4.0
- Selected for a competitive year-long academic exchange at the **University of Pennsylvania**; GPA: 3.93/4.0
- Courses: Advanced Mathematics, Intro to Computer Programming, Negotiations, Advanced Spanish

WORK EXPERIENCE

Northwestern University, Institute for Policy Research

Research Assistant (PI: Prof. Bernard Black)

Evanston, IL

May 2026 – Present

- Developed 10+ Python and Playwright scrapers to pull and normalize court records from non-standard county court sites, building a combined 200,000+ row database that powers the team's country-wide guardianship research
- Built an AI-skill tool with Claude that reads each site's layout and auto-generates a working scraper, letting the team onboard each new county or state site in a fraction of the time and cutting scraper-building time by around 40%
- Ran initial analysis on 100,000+ entry datasets, building 10+ R and Excel visualizations to surface early patterns and data issues that supported the team's downstream causal inference analysis in Stata to drive guardianship reform

Northwestern University

Independent Researcher, Weinberg Research Grant (Advisor: Prof. Jonathan Koehler)

Evanston, IL

Feb 2026 – Present

- Awarded \$1,000 in competitive research funding to independently design and run the full empirical, quantitative analysis
- Wrote an R script to scrape, flag, and filter 700+ federal court rulings down to the 100+ cases featuring the expert-testimony challenges central to the study, replacing weeks of slow manual review with an automatic screen
- Built a semi-automated pipeline pairing Claude Code with R to follow a reading protocol, extract ruling text into an original 200+ record dataset, and auto-code structured variables, cutting manual collection time by roughly 50%
- Ran logistic regression and built visualizations in R, uncovering a halo-effect mechanism in expert-testimony admissibility

King & Wood Mallesons

Legal Intern

Beijing, China

Jun 2024 – Aug 2024

- Researched cross-border aircraft-finance regulations across precedent cases, distilling dense statutory, regulatory, and case-law analysis into 10+ memos and risk assessments that directly supported \$30M+ in aircraft-leasing transactions
- Built automated Excel comparison models using R to reconcile 10,000+ client data entries across deals, cutting manual verification time by 40% per cycle while improving the accuracy and audit trail of the underlying transaction records
- Conducted due diligence on 3 cross-border deals, dissecting corporate bylaws, shareholder structures, capitalization tables, and investor records to surface the legal and financial risks that shaped the deal team's structuring decisions

LEADERSHIP & EXTRACURRICULAR

The Daily Northwestern

Data Reporter

Evanston, IL

Sep 2025 – Present

- Analyzed multi-year district education data to surface proficiency and demographic trends for evidence-based reporting
- Built 15+ interactive R, Tableau, and Power BI visualizations turning raw data into stories read by 1,000+ readers

University of Pennsylvania

Campus Tour Guide

Philadelphia, PA

Aug 2024 – Jun 2025

- Planned routes and led campus orientation tours for 3 successive cohorts of incoming international exchange students
- Acted as new students' first point of contact, fielding logistical and academic questions throughout their transition

Zhejiang University Student Association

Director of Events

Hangzhou, China

Sep 2023 – Jun 2024

- Planned and led 10+ cultural and diversity events, directing a 10+ person team and its budget to reach 100+ attendees
- Coordinated intramural sports programming, organizing scheduling, logistics, and season-long participation across teams

SKILLS & INTERESTS

Languages: Mandarin (Native), Spanish (Intermediate) | **Programming Languages:** Python, SQL, R

Data Visualization & Analytics: Tableau, Power BI, HTML/CSS, Stata | **Legal Research:** Westlaw, LexisNexis

Developer/Designer Tools: Github, VS Code, Figma, Microsoft Office Suite & Google Workspace, Canvas

Beyond Resume: I play soccer, rock climbing, listen to Britpop and indie rock, and am also a foodie and AvGeek
